Report on Certificate Course in Communicative English – Batch 1 & 2 (Session 2021-2022 & 2022 -2023)

Objective: The objective of a course on communicative English is to enhance learners' ability to effectively communicate in English across various contexts. It induces enhancement in fluency, pronunciation, intonation, and confidence in spoken English through structured practice activities and real-life simulations. It also introduces new vocabulary related to various topics and situations, as well as strategies for acquiring and using vocabulary effectively in communication creating a supportive environment that encourages learners to overcome inhibitions and fear of making mistakes, fostering confidence in using English for communication.

Duration of the course: 30 hours for each batch (Batch 1- December 2021 to May 2022 & Batch 2- December 2022 to May 2023)

Instructor: Dr. A. Chakraborty, Dept. of Basic Science and Humanities, Future Institute of Engineering and Management, Kolkata.

No. of participants: 30 students in each batch.

Outcome: The successful completion of the course leads development of skills for effective communication in various interpersonal contexts, including formal and informal settings, professional environments, and social interactions. It familiarises learners with digital tools and resources that can aid in language learning and communication, such as online dictionaries, language learning apps, and communication platforms providing opportunities for real-life communication tasks such as discussions, debates, presentations, and role-plays, allowing learners to apply language skills in authentic situations.

Platform: Google meet.

Organized by Maulana Azad College in collaboration with WEBEL

Objective: The Objective of the course is primarily to technically educate and enable the students (mostly minority) of the college in basic use computer. At the same time the course attempted to inform the students about office automation (Module 1). It was aimed to spread awareness on different basic computer programmes and the utility of the same. The college invited officials ofWest Bengal Electronics Industry DevelopmentCorporation to give insight and train for better performances which are not only academic but also life-building. A large number of students participated in the event. Most of them were enthusiastic for the course and it left all wanting more.

Date of initiation: 22nd February, 2022

Duration: 36 hours

Speaker/instructor: officials of West Bengal Electronics Industry Development Corporation

Number of Participants: 30 students from various academic and socio-economic background participated in the event.

Outcome: The programme was targeted to enhance the academic potential of the students. During the Covid period a general ambience of depression and passivity prevailed. The students did not get a chance to prepare themselves for the tools necessary to achieve better academic performances. Not only that but also the course helped the students to have an understanding of the future vocational trainings. They would be one step ahead, primarily in the job market with this course as a back-up for better understanding of the computer oriented knowledge. This course, especially for the female students of the college in general, played avital role in building their fundamental grip on computation.

Platform: Hands-on-training in Computer facility of Chemistry Department.
