

What's the best way to make a scientific break-through?

Become a researcher at LSTC!

We invite your referrals for bright, young PhDs from reputed global and Indian institutions, for these industrial post doctoral positions:

- Biological Sciences
- Forest Pathology
- Measurement Science
- Paper & Material Science - Coating, Paper and Pulp
- Paper & Material Science - Flexible Packaging
- Plant Breeding
- Sensory Science
- Transdermal Sciences

Your friends will have many opportunities while working in LSTC, a powerhouse of fundamental and applied research. From working with reputed scientists to supporting major innovations, LSTC provides a rich environment for scientists!

Send their updated resumes to raju.vadde@itc.in before September 15, 2021.
