

DEPARTMENT OF PHILOSOPHY

Program outcome:

The entire program of Philosophy promote reflective thinking of the students. The lesson of logic enables them to become more creative and innovative in solving many critical problems which they may confront in their daily existence.

The Part of this course also wants to make students acquainted with the ethical values of classical Indian culture and civilization and apply the same in their practical life without forgetting the difficulties of applying the same in their everyday life. Emphasis on the study of social concepts like society, community and political principles of democracy, socialism also equips them to become aware about the present global problems and address them from the perspective of the basic normative dictums of practical ethics. The curriculum also wants to highlight the importance of practicing religious tolerance towards other members of the society and foster a keen interest in engaging in analytic discussions on different philosophical concepts ..A thorough study of the great Indian and western traditions also promote a deep knowledge about man ,life and the importance of liberating one from the sorrows and anxiety of the everyday contingencies. The course also tries to imbibe the tendency to develop intimate relations between man and nature, and also reminds the necessity of laws and forms of right thinking.
